

I have learnt how to:

- manage my own risk and keep myself safe.
- make an appropriate emergency 999 telephone call
- recognise an unconscious person and take the correct action
- put an unconscious breathing person into the recovery position
- commence basic life support on a non breathing unconscious person
- administer basic first aid in the event of:
 - burns and scalds
 - cuts and bleeding
 - choking
 - electrocution
 - pedestrian injury

Certificate

This is to certify
that

Well done
